CASH MANAGEMENT PLAN
BOROUGH OF BLOOMINGDALE
PASSAIC COUNTY, NEW JERSEY

I. STATEMENT OF PURPOSE

This Cash Management Plan (the “Plan”) is prepared pursuant to the provisions of N.J.S.A. 40A:5-14 in order to set forth the basis for the deposits (“Deposits) and investment (“Permitted Investments”) of certain public funds of the Borough of Bloomingdale, pending the use of such funds for the intended purposes. The Plan is intended to assure that all public funds identified herein are deposited in interest or dividend bearing accounts or otherwise invested in Permitted Investments hereinafter referred to. The intend of the Plan is to provide is to provide that the decisions made with regard to the Deposits and the Permitted Investments will be done to ensure the safety, the liquidity (regarding its availability for the intended purposes, and the maximum investment return within such limits. The Plan is intended to ensure that any Deposit or Permitted Investment matures within the time period that approximates the prospective need for the funds deposited or invested so that there is not a risk to the market value of such Deposits or Permitted Investments.

II. CASH MANAGEMENT POLICY

- A. Objectives:** The priority of investing policies shall be, in order of descending importance, security, liquidity and yield.
- 1) Security: The safety of principal is the foremost objective of the cash management plan. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate credit risk and interest rate risk.
- 2) Credit Risk: Credit risk is the risk of loss due to failure of the security issuer or backer. Credit risk may be mitigated by:
 - a. Limiting investments to the safest types of securities.
 - b. Pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which an entity will do business.
 - c. Diversifying the investment portfolio so that potential losses on individual securities will be minimized.
- 3) Interest Rate Risk: Internet rate risk is the risk that market value of the securities in the portfolio will fall due to changes in general interest rates. Interest rate risk may be mitigated by:
 - a. Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and
 - b. By investing operating funds primarily in shorter-term securities.
- 4) Liquidity: The investment portfolio must remain sufficiently liquid structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity).
- 5) Yield: The investment portfolio must be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic

liquidity).

- a. A declining credit security could be sold early to minimize the loss of principal.
- b. A security swap would improve the quality, yield, or target duration in the portfolio.
- c. Liquidity needs of the local unit require that the security be sold.

1) Prudence

The standard of prudence to be used by investment officials shall be the “prudent person” standard and shall be applied in the context of managing the overall portfolio in accordance with the State Law and this policy. Investments shall be made with the judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well all the probable income to be derived.

2) Ethics and Conflicts of Interest

The designated officials involved in the investment process shall not have personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions.
